### DEAR NEW NEIGHBOURS,

Freiham is growing a little more day by day. Our neighbourhood is changing constantly. You are a part of it now. It's nice to have you here. We want you to feel at home in Freiham. That's why we want to offer you our support.

Do you have any questions or ideas for the district? Would you like to get to know other residents? Are you looking for support on family-related issues? Then we are the right contact points for you.

#### FAMILIEN- UND BERATUNGSZENTRUM FREIHAM (COUNSELLING AND FAMILY CENTRE FREIHAM) | SOS-Kinderdorf München & pro familia München

Are you looking for contact with other families? In our open meetings you can play, sing, do handicrafts and just chat with others. Do you have questions regarding family, parenting and child development? We are happy to offer you advice, also in one-to-one consultations. Feel free to come to our open meet ups at Hörweg 15. We offer our services to families with children aged 0 to 6. We also welcome all children in Freiham aged six to eleven to our children's club at Hans-Clarín-Weg 11 every Monday, Tuesday, Wednesday and Thursday from 3:00 pm to 7:00 pm.

#### NACHBARSCHAFTSTREFF FREIHAM (NEIGHBOURHOOD MEETING PLACE FREIHAM) | KINDERSCHUTZ MÜNCHEN

Are you looking to meet and interact with others in the neighbourhood? Or for rooms you can rent for a private event? Would you like to get involved in sustainable and peaceful community life? Or get active in urban gardening at the Freiluftgarten (open air garden) Freiham for more nature and sustainability in the district? Visit our diverse offers from the neighbourhood for the neighbourhood or contact us. The office of the Nachbarschaftstreff is open from Monday to Friday at varying times. This welcome letter is an initiative of the **PRÄVENTIONSKETTE Freiham**.

The Präventionskette Freiham aims to enable all children and adolescents in Freiham to grow up well and healthy and to participate in social life. To achieve this goal, the Health Department, the Department of Education and Sports and the Social Department of the city of Munich, as well as various institutions for children, adolescents and families are working closely together in a new way. Together, they are looking at what is needed in the district, and developing and implementing offers and activities in the areas of health, education and social issues. The Präventionskette Freiham is coordinated by MAGs – München Aktiv für Gesundheit e.V. – on behalf of the City of Munich and funded by the Health Department.
